CAREER OBJECTIVE

Aspiring Java Developer with a strong foundation in Spring Boot, JavaScript, JDBC, and Cloud Computing. Seeking to leverage my technical skills and hands-on project experience to contribute to innovative and impactful software development initiatives. Passionate about solving complex problems and continuously improving my skill set in a dynamic and collaborative environment

ADDITIONAL SKILLS

- JAVA , C#
- HTML , CSS , TAILWIND , JAVASCRIPT
- SPRINGBOOT , .NET
- GITHUB , AZURE
- WORDPRESS, PHP

COURSES/INTERNSHIP

QSPIDER, 2023

I am an aspiring Java Full Stack Developer with a strong understanding of Java, JDBC, Servlets, Hibernate, Spring, and Spring Boot. I completed Java Full Stack Development training at QSpiders and have hands-on experience with HTML, CSS, Tailwind CSS, and JavaScript.

COGNIYFZ TECHNOLOGIES , 2024

The Cognifyz Java Full Stack Internship is a one-month program designed to provide hands-on experience in Java. It starts with an orientation and onboarding session, where interns are introduced to the company's culture, team, and tools they will be using.

BRAIN INSIGHT , 2025

I created a Tailor Shop Website using WordPress and Elementor Pro. I designed a responsive and user-friendly interface, added service details, and optimized the site's performance. The project was successfully completed and delivered to the client, meeting all their requirements and expectations.

EDUCATION

BE-ELECTRICAL AND ELECTRONIC ENGINEERING (2019-2023)
Pavai College Of Technology 8.0/10 CGPA

PROJECTS

SPRING BOOT

MUSIC APPLICATION

- Developed a Music Application using Java Spring Boot, featuring user and admin roles. The admin can upload and store audio files in Cloudinary, with metadata stored in MySQL. Users can browse and listen to songs seamlessly through the application

. NET

E-COMMERCE WEBSITE

- Developed and successfully completed a BIT E- commerce website using C#/.NET, integrated with APIs for login, user, and Admin functionalities.

WORD PRESS

TAILOR WEBSITE

- Developed a Tailor Shop Website using WordPress and Elementor Pro. Designed a responsive, user-friendly interface, integrated service details, and optimized performance. Successfully completed and submitted the project to the client, meeting all requirements and expectations.
